

COVID-19 Update:

OUR SHOWROOM IS OPEN, but due to the seriousness of the COVID-19 situation we are asking our valued customers to keep social distance (6ft) and refraining from touching items in the showroom. We also are asking customers to keep their stay limited to what is necessary to conduct business, and those with appointments to not wait in the showroom itself while their vehicle is being worked on. We are doing everything we can to keep our environment safe and friendly for everyone.

For those who want to limit personal contact further, we will also be available via phone during our normal business hours and contact through our website. We will be able to offer you sales and services that require little to no person to person contact such as curbside delivery (either here or at your home), car installation and repair by appointment, Intoxalock calibration and service, and more. Please contact us for specific details. In these difficult times, please be patient as we are all in uncharted territory and doing the best we can. Thank You and stay Safe!
