

Thank you for visiting our website!!!

Product Delays - Thank you for being patient during these unprecedented and unpredictable times. The appliance, bedding, and furniture industries have seen higher demand due to American families spending more time and money on their homes during this pandemic. These industries have also experienced a shortage in raw materials and labor. This has created longer than normal wait times in getting our home furnishing goods from the manufacturer's facilities to our customer's homes. Please know we are communicating often with our manufacturers and working very hard in-house to get these goods received, inspected, and delivered to you as quickly as we can.

Checking Status on Orders - Please feel free to email our team at bells.customerservice@gmail.com to check status on your orders. Please know that any dates given are our best estimate and are subject to change at any time.

Stock Items - Due to the pandemic, inventory is coming into our warehouse slower than normal. We do still have many stock items to purchase, while certain items do need to be special ordered. We would love to show you what we have available at this time!

COVID-19 Store Policy - We are committed to making the health and wellbeing of our customers, families, and staff our top priority! If you are feeling well, we would love to have you come into our store for appliances, bedding, or furniture. You will be welcomed with a warm wave. You will also be confident that we are making the necessary steps to keep you safe. We are asking our staff and customers to wear masks and following social distancing guidelines.

We have many ways that you can shop with us and we are happy to accommodate whichever way works best of you. If you do not want to come into our store, feel free to shop online/webchat, email, or call a sales associate at our store.
